DETAILED ACTION

1. This is in response to amendment filed on September 3, 2008. Independent claims 20 and 29 have been amended. Claims 2, 5, 7, 13-19, 24, 28 and 30 have been cancelled. Claim 32 is newly added. Claims 1, 3-4, 6, 8-12, 20-23, 25-27, 29 and 31-32 are pending in this application.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark R. Vatuone (Reg. No. 53,719) on November 26, 2008.

Claim 32 will be amended as below:

32. A machine-readable storage medium storing a sequence of instructions that, when executed by a machine, cause the machine to:

define in a database a first structure of categories as a first hierarchy of categories to classify a data item, the first structure of categories includes at least a first category, the first category comprises a first category path defined in terms of the first structure of categories that are respectively associated with a first plurality of category identifiers;

define in the database a second structure of categories as an alternative second hierarchy of categories to provide an alternative classification of the data item, the second structure includes at least a second category, the second category comprises a second category path

defined in terms of the second structure of categories that are respectively associated with a second plurality of category identifiers, the second category is associated with the first category; and

define in the database the second category to point to the first category

Allowable Subject Matter

3. The examiner is allowing this case with the assumption that the claimed "storage medium" is of one of statutory types, and it DOES NOT include carrier waves, signals, and/or transmission media.
4. Claims 1, 3-4, 6, 8-12, 20-23, 25-27, 29 and 31-32 are allowed over the art of record.
5. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 20, 29 and 32, the prior art fail to suggest or disclose the claimed provision "a first structure of categories....a second structure of categories as an alternative second hierarchy of categories ...and the second category to point to the first category in the database" as claimed in conjunction with remaining claims provisions.
6. The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Prior Art Made of Record

8. Angus et al. (US 7,003,504 B1) disclose data processing system.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
